Four Women in Party Bagged in Early Hours of Raleigh.

The early morning peace and quietude of Raleigh was shattered rudely Monday morning about 5 o'clock, when startled residents were awakened by the sound of ribald shouts and curses coming from the direction of the general store. Cautious peeps from behind discreetly closed window shades disclosed an automobile containing five men and four young women. The general tone of conversation made it apparent that another but invisible passenger in the car was the famous "Ill shorty," whose obsequies were observed throughout the nation on last July 1, but who refuses o stay dead.

The outraged citizenry summoned the community's galant deputy sheriff. Taylor Gowan, terror of evil-doers and enemy of Demon Rum. The dauntless deputy hastily dressed, donned his 38 special, and proceeded to pull a pinch in most approved style. Having aubdued his prisoners by revealing his shining star of authority, Gowan telephoned Sheriff O. H. Perry of the capture.

The sheriff rolled out in his nightie.

phoned Sheriff O. H. Perry of the cap-ture.

The sheriff rolled out in his nightie to answer the telephone. He rolled back between the sheets after he had telephoned Deputy W. E. Goswick, his Binghamton deputy, to assist Gowan in escoring the prisoners to the county jail. There, charges of drunk and dis-orderly, and profanity were lodged against the nine. While none of them gave the name of Douglas Fairbanks, James G. Blaine, or William Jennings Bryan, Gowan insists that a majority of the monkiers jotted on the jail blotter were "phoney."

Ruth Christie and brother display more than ordinary ability as brass instrumentalists and then step through some excellent xylophone numbers At all times an instrument of melody, the saxophone in the hands of Christie is delightfully toneful. Originally marks the blackface turn of Howard and Murray. These blackface artists stand well above any who have visited this house in some time. Jeanette Willard and Bobby Jones please in song and chatter. Some new treks, novel and quite difficult are executed by the Norvelles in as nifty and dainty an acrobatic turn as one wants to see. If your child is underweight then the chances are that it is undernourished, as undernourishment is the chief cause of lack of weight.

Undernourishment means improper diet-unbalanced food. Children cannot live on fancy foods and omit such vital foods as bread, milk, dairy products and staple vegetables-without paying for it in ill health.

You are doing a direct injustice to your child when you do not give him these simple staple foods in their correct proportion. Of all good foods that one which deserves your first consideration is bread, for bread is

eaten three times a day and is or should be the backbone of every person's diet. Our booklet, "Bread-Its Relation to Life, Health,

It gives not only interesting information in regard to good bread, how it is made and why it is valuable to the growing child, but it contains much valuable information on the proper diet of children and how to nourish them correctly. it also has several valuable tables and charts on food values, relative costs, what children should weigh, etc. How to determine when a child is underweight and a great deal of other valuable information.
